

Technical Order

AF TECHNICAL ORDER SYSTEM

T.O. 00-5-1, 15 February 1993, is supplemented as follows:

3.12.6. (Substitute). Air National Guard (ANG) units will not forward a copy of any locally developed work cards, checklists, or job guides to the Air National Guard Readiness Center (ANGRC). However, copies may be forwarded to ANG units that possess similar weapon systems. Only the weapon system maintenance council may forward a work card deck, checklist, or job guide to the ANGRC along with the recommendation that it be adopted ANG-wide and forwarded to the SM or IM for possible AF-wide application.

6.11.3.3. (Added). All urgent, routine, and waiver reports are routed in accordance with (IAW) table 1 of this supplement.

6.12.5. (Added). Route the action and the information copies of emergency AFTO Forms 22 IAW table 1 of this supplement.

6.13. (Added). The ANG has been granted a waiver from the "review requirement" by HQ USAF/LGMM. The command address will always be entered into Block 1 of every AFTO Form 22. The following statement will be entered into Block 10 of the AFTO Forms 22 which no longer require a review; "Command review waived by Hq USAF". These AFTO Forms 22 will then be routed IAW table 1 of this supplement. However, since the SM or IM can no longer change the category of ANG Emergency or Urgent AFTO Forms 22 without the concurrence of the ANGRC, an information copy of all Emergency or Urgent AFTO Forms must be sent to the ANGRC IAW table 1 of this supplement.

6.13.1. (Added). ANG units will use either the AF Form 2449, local reproduction authorized (LRA), *The Technical Order Improvement Report Log* or an equivalent automated data product (ADP) to log AFTO Forms 22. The home wing or group is responsible for any AFTO Forms 22 submitted by a geographically separated detachment.

6.19. (Added). Suspense files are established at the local level.

6.19.3. (Added). A copy of both the current and past month TOIS Status List is kept on file in ANGRC/LGMM. For additional information on a particular AFTO Form 22, contact ANGRC/LGMM.

6.21.1. (Substitute). ANG personnel submitting or processing an AFTO Form 22 with a related suggestion will follow the procedures listed in the basic TO with the exception of using NGB Form 6 in lieu of the AF Form 1000. ANG personnel originating a suggestion that specifically requests a change in technical data should prepare an AFTO Form 22 as a subordinate document. The original copy (NGB Form 6) will remain in suspense until approval action. The attached suggestion will not receive any intermediate evaluation but should receive a final evaluation by the equipment specialist who has the engineering authority. The AFTO Form 22 with the attached subordinate document will be routed with the original copy (NGB Form 6) to the appropriate ANGRC office listed in table 1 of this supplement.
